

daylight™

See what a difference daylight makes

1

daylight™ lighting significantly increases contrast and helps to make reading easier

2

daylight™ lighting ensures you see colours accurately, anytime of the day or night which is essential for best colour matching

3

daylight™ lighting enables you to see intricate details and finest designs with ease

4

daylight™ lamps are specifically designed for individual needs; reading, crafting, painting or industrial inspection work

5

Some daylight™ products have been developed in conjunction with Royal National Institute of Blind People. For further information and support about sight loss visit RNIB website www.rnib.org.uk

6

daylight™ full spectrum light technology is kind to your eyes, reducing glare, which helps reduce eye strain, headaches and red-eye

7

daylight™ bulbs/tubes are environmentally friendly as they use 80% less energy and last 10x longer, reducing your electricity bill and doing your bit for the planet

8

daylight™ bulb/tubes are low heat technology for ultimate comfort and safety, even if you touch the shade or tube of this lamp by accident, you will be safe

9

daylight™ lamps have been designed to combine form with practical function

Daylight Studio & Easel lamps

Artist Studio Lamp + Stand (32W)

DLE31375

The Artist Studio Lamp provides a high quality large stylish brushed aluminium finish on a 2.2m tall sturdy tripod. Not only is this lamp extremely powerful (32W energy saving bulb 130W equiv.) but also spreads the light across a wide area which is ideal for large paintings. The natural bright white daylight™ technology also reduces eye strain and glare for healthy vision and allows true colour correcting for colour matching when painting or looking at photographs.

Easel Lamp

DLE31075

Designed for artists who require perfect Daylight™ light whilst working on small to medium size paintings. Our unique new Clamp-lock system™ keeps this lamp firmly attached to any easels up to 3.2cm thick, even when you are adjusting the 18cm/7" flexible arm to direct the light exactly where you want it. The wide shade with reflective coating and the bright 20w Daylight™ light will create the ideal circumstances for optimal colour rendering, similar to north-facing studios, but now day and night. This comfortable light also eases eye strain, helps to see details and is useful for people with failing eyesight. This lamp comes with an extra long 3m/10' cable.

Professional Artist Lamp II

This is beautifully designed powerful artist lamp which is chic and modern. It is supplied with two clamps for optimal flexibility and versatility. The universal clamp allows the lamp to be attached to virtually all floor standing metal and wooden easels. The heavy duty table clamp allows the lamp to be used with a table easel, on a draughting table or work bench in a matter of seconds! The 24W low heat daylight™ tube is now longer and provides an even wide spread of perfect white light (equivalent to 125W). Have total control over your creativity with the right light exactly where you need it via a 360° degree shade rotation and 320° degree head-flip system which allows the lamp head to swivel completely to a different area, maximising light coverage up to an A1 size area.

Triple Bright Lamp

This is one of the brightest daylight™ lamps. If you need maximum light, look no further. With 250W of pure white natural daylight, this is a professional high power workstation lamp, lighting up wide areas on your desk, work station, drawing board or large painting. The lamp has 3 x 14W energy saving daylight™ tubes offering an incredible 42W pool of light. The 60cm large shade can be smoothly adjusted vertically, horizontally and laterally to any desired position. With this great light you will be amazed how much better you will see the finer details, contrast and true colours in your work. It is also widely used by printers to check printwork and books and by jewellers to inspect precious stones and gems. The low heat full spectrum daylight™ light with 6,500°K improves contrast, reduces glare and is the best lighting available for colour rendering. This is maybe the best working light you will ever use!
